- **Tools:** Git, GitHub, VS Code, Chrome Dev Tool, Debugging, Heroku, Netlify, Figma, Photoshop CC, PSD to HTML, etc.

### PROJECTS

---

#### 1. Exclusive Watch ► Full-stack website ► [Live Site](#) | [Client Site Code](#) | [Server Site Code](#)

**Technologies:** React JS, React Router, Nested Routing, React Hook Form, Node JS, Node Express, MongoDB, Firebase Authentication & Hosting, React Bootstrap, Heroku, React Icons, Axios.

**Project Overview:**

- It is a watch selling site where the users can buy the products. In the dashboard, they can cancel the order and can check the order status. Also, they can review the site. (Login is required for dashboard access).
- An administrator/owner can approve or cancel or send an order in the admin panel and add or delete products, making someone an admin. (Only admins can see the admin panel), For testing purposes, admin's email: admin@admin.com, password: 123456.
- It uses CRUD operation and has a sign-up / sign-in system. A fully functional and responsive site has been created based on MERN.

#### 2. Fantasy Kingdom ► Full-stack website ► [Live Site](#) | [Client Site Code](#) | [Server Site Code](#)

**Technologies:** React JS, React Router, React Hook Form, Node JS, Node Express, MongoDB, Firebase Authentication & Hosting, Bootstrap, Css3, Heroku, React Icons, Axios.

**Project Overview:**

- It is a ticket booking site where users can book their ride plans. To book a plan, a login is required. They can cancel the order and can check the order status.
- An administrator/site owner can add or delete a service and approve or delete user orders for testing purposes, all users have administrative access.
- A fully functional and responsive site has been created based on MERN. It uses CRUD operation and has a sign-up / sign-in system.

#### 3. Dental Clinic ► React Authentication Website ► [Live Site](#) | [Github Code](#)

**Technologies:** React JS, React Router, React Hook Form, Firebase Authentication & Hosting, Bootstrap, Css3.

**Project Overview:**

- Users can see the dental services and can book dental care services.
- This is mainly a front-end-focused website with a sign-up / sign-in system.
- It has fully responsive five different routes to define all the services with awesome design.

#### ► Academic History

- BSc. in Computer Science & Engineering
- University of Development Alternative (UDA).
- Dhanmondi-1207, Dhaka, Bangladesh.
- I have basic knowledge of C, C++ and WordPress.

#### ► Training and Experience

- Complete Web Development Course Batch-4 2021 from Programming Hero-with Jhankar mahub.
- [Certificate of completion with excellence](#)
- Web Design & Development Course from European IT Solutions Institute. Mirpur-10, Dhaka.
- [Certificate of completion with excellence](#)
